

IDEATION PHASE  
EMPATHIZE & DISCOVER

DATE	10 October 2022
TEAM ID	PNT2022TMID47713
PROJECT NAME	Real time communication system powered by AI for specially abled.
MAXIMUM MARKS	4 marks

## Brainstorm & Idea prioritization

Use this template to your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes or more
- 1 team or collaborate
- 2-20 people recommended

### Before you collaborate

A title of a presentation gives a strong way with the session. Here's what you need to be getting going.

- 1. Turn planning: Before you start, get across the main goal and set the tone. Share your intention in your chat about.
- 2. Define goal: This should be similar to the learning or working in the brainstorming session.
- 3. Learn how to use the facilitator role: Use the Facilitator Experience in your laptop and prototype session.

Open guide

### Define your problem statement

What problem are you trying to solve? Frame your problem as a how might we statement. This will be the focus of your brainstorm.

10 minutes

To help the specially abled person by using AI technology and to barriers the disabilities with this technology

Key value of brainstorming: To generate ideas and prototype solutions

- Key to work: Encourage all ideas
- Take progress: Listen to others
- Go forward: If possible, be direct

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Tip: You can select a sticky note and use it to the point (stick to sticky notes to brainstorming)

#### AJAY

Accelerating R&D to develop innovative therapies and diagnostics

Advancing and development new treatments

Building supply chain resilience and improving sustainability

Transforming next generation commercial models through digital data and analytics

#### RIVA

Accelerating analytics data, digital transformation

building global health capabilities in many area

Creating values through strategic mergers and acquisitions

Transforming and strengthening health care

#### DIYA

Enabling health system to promote health equity for patients

We can make text telephony to communicate

We can use sign language interpretation

We can augmentative and alternative communication to help them

#### ANISH

Make robots to assist them to teach social and educational skills

Can lower the barriers of disabilities

Can get connected with national relay services

We can alert them if any disasters occur by alarming system

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

10 minutes

Tip: Add conversation sign to sticky notes to make it easier to find, increase engagement, and encourage freer ideas to develop within your team.

Make robots to assist them to teach social and educational skills for students

We can alert them if any disaster occur by alarming system

We can use sign language interpretation

Advancing and developing new treatments

Transforming and strengthening health care

### Prioritize

Your team should all be on the same page about what's important, moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Tip: Participants can select their ideas to place in each quadrant and discuss. For each idea, they should be able to explain the idea and how they plan to bring it to the next step.

Importance

Feasibility

we can alert them if any disasters occur by alarming system

Transforming and strengthening health care

Advancing and developing new treatments

we can use sign language interpretation

Enabling health systems to promote health equity for patients

Building global health capabilities in many area

Building supply chain resilience and improving sustainability

Can lower the barriers of disabilities

Make robots to assist them to teach social and educational skills for students

Creating values through strategic mergers and acquisitions

### After you collaborate

You can expect the work to be in its state with members of your team might find it helpful.

Quick advice

- Share the work: Share a checklist in the next step to start in the next step of the session.
- Repeat the work: Share a copy of the next step of the work, repeat the work, repeat it.

Keep meeting focused

- Strongly disagree: Define the responsibility of meeting.
- Open the session: Open the session.
- Customer experience: Customer experience is the most important factor in the session.
- Open the session: Open the session.
- Simple, well-known: Simple, well-known, and easy to use. (BUT) in the session.
- Open the session: Open the session.

10. Share session feedback
